Assessment**

Pediatric Sexual Assault

Trauma Informed Care

Child Abuse Atlas

60

AMA PRA Category 1™ credits
ANCC credits

The Child Abuse eLearning Collection includes:

Medical Evaluation of Child and Adolescent Sexual Abuse 20

Unlike traditional resources, this innovative e-learning module provides a comprehensive, evidence-based educational experience, and is considered the new gold standard in child abuse education.

Bonus modules:

- Abridged Version (1-2 hours)
- Challenging Cases in CSA

Pediatric Sexual Assault 10

Pediatric Sexual Assault teaches students and healthcare professionals the language of evidence-based evaluative methods used when caring for the pediatric sexual assault patient. Sixteen interactive, pediatric peer-reviewed cases are included.

Trauma Informed Care

Learn how to use a trauma-informed, rights-based approach when caring for pediatric and adolescent sexual assault patients.

Human Trafficking - Child Sex Trafficking 10

This comprehensive e-learning module teaches health professionals how to recognize and respond to children and adolescents who may be involved in sex trafficking using a trauma-informed, rights-based approach.

Pediatric Strangulation Case Review and Assessment 20

A collection of living pediatric strangulation patients evaluated and treated in the medical setting, presented in conjunction with evidence-based knowledge on pediatric strangulation evaluation and treatment.

Child Abuse Atlas

This online educational platform contains well over 1,500 images and 700 actual cases used to illustrate 150 topics. Every topic includes cases depicting Normal Anatomy, Congenital and Developmental Variations, Trauma and Nontraumatic findings.

The Child Abuse Atlas helps build skills to medically evaluate, assess and diagnose child (sexual) abuse collection and treatment protocols.
